

I have been informed that my local FM translator service may be replaced by an LPFM. The station I listen to is K-LOVE. I am a financial supporter of this station because of the need to have this sort of station broadcast in my area. This station is heard in many local offices, restaurants, and businesses. It is one of the few stations that is desirable for the entire family to listen to. It promotes family values and is an encouragement to those who listen. Please re-consider your plans to expand the LPFM service. We need to keep K-LOVE on the air. Katherine Chalfant
